

Cinnamon is an ancient herb that has been used for centuries in traditional medicine. It is known to possess a number of bioactive constituents that exhibit free radical neutralizing activity; other studies suggest that Cinnamon components may promote balanced immune system and inflammatory responses. Preliminary evidence suggests Cinnamon exhibits antioxidant properties.† Certain research publications indicate that Cinnamon may help support the following:

- › Supports healthy blood sugar level.†
- › Supports fat metabolism.†
- › Supports heart and circulatory health.†

SUGGESTED USE: As a dietary supplement, take two (2) capsules twice daily, preferably with meals. If preferred, the capsules can be opened and added to beverages and food, for example-tea, coffee, hot chocolate, cereal, oatmeal.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
