

Directions: As a dietary supplement for adults, take one (1) vegetarian capsule daily with food, or as directed by a physician.

Healthy Origins® Fermented Resveratrol is a premium resveratrol supplement that is >98% *trans*-resveratrol, PAH-free and emodin-free.

The majority of resveratrol sold throughout the world is Chinese-sourced resveratrol that is extracted from the Japanese Knotweed plant (*Polygonum cuspidatum*). Given the origin of polygonum-derived resveratrol, there is a serious risk that many of these products are contaminated with high levels of PAHs (a class of chemicals that can be detrimental for human health) or emodin (an impurity known for its laxative effect). Healthy Origins® Fermented Resveratrol is produced by yeast fermentation which eliminates PAHs or emodin.

Healthy Origins® Fermented Resveratrol is encapsulated and packaged in the USA using Veri-te® resveratrol produced in Europe.

Veri-te® is a trademark of Evolva or its affiliates in the United States and other countries.
