

DHEA, dehydroepiandrosterone, is the most abundant adrenal steroid hormone in the body. It is secreted by the adrenal gland and serves as a precursor for testosterone and estrogen which regulates fat and mineral metabolism, endocrine and reproductive function, and energy levels. DHEA levels peak around age 25 and then decline steadily.† Certain research publications indicate that DHEA may help support the following:

- Supports mental health & memory.†
- Supports healthy aging.†

SUGGESTED USE: As a dietary supplement, take one (1) tablet daily, preferably with a meal, or as directed by your qualified healthcare professional.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
