

D-Mannose is a monosaccharide hexose sugar, naturally found in some trees, berries and fruits, such as cranberry. Although small amounts of D-Mannose are metabolized by the human body, much of it is rapidly excreted in the urine. In the bladder, D-Mannose can adhere to undesirable foreign substances, preventing them from sticking to the lining of the bladder.*

SUGGESTED USE: As a dietary supplement, take three (3) capsules one to three times daily. Take with water or unsweetened juice, such as unsweetened cranberry juice.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
