

DMG (dimethylglycine) is a dimethylated derivative of the simple amino acid glycine. It improves oxygen utilization and may act as an antioxidant by stimulating lymphocyte proliferation and interferon production.* Certain research publications indicate that DMG may help support the following:

- › Supports immune response*
- › Supports brain function*
- › Supports oxygen utilization*

SUGGESTED USE: As a dietary supplement, take one (1) capsule one to three times daily, or as directed by your qualified healthcare professional.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
