

**Directions:** Take three drops under the tongue or in juice/water with meals. An excellent addition to hot milk, oatmeal, or cereal. Ideal for use as a flavoring.

Cinnamol is an extremely concentrated oil blend because the cinnamon is extracted through a process known as supercritical (cold) extraction. This essential oil is easy to use sublingually, which ensures optimal absorption. Cinnamol freshens breath and is ideal for use after meals. Kids love it.
