Store in a cool dry place.

No refrigeration necessary in blister pack.

\*\* 1 CFU = 1 Colony Forming Unit

HOWARU® is a trademark of DuPont used under license by Doctor's Best, Inc.

*Bifidobacteria* and *Lactobacilli* are important components of the intestinal microflora. The Intestinal tract naturally contains a beneficial ecosystem of good bacteria that contributes to the body's healthy immune response. Lifestyle changes such as occasional stress, diet or environment commonly result in the loss of beneficial bacteria which may cause digestive imbalance in the intestinal flora.\* A balanced intestinal microflora is vital in keeping the body in healthy working order.\*

**Doctor's Best Digestive Probiotic** supplies three strains of *Bifidobacterium* and three strains of *Lactobacillus* probiotics, all of which are proven benefits for digestive and whole-body health.\* Scientific studies have shown that ingestion of these specific strains of friendly bacteria supports several physiological functions, particularly the body's natural immune system and general intestinal well-being.\* The probiotic strains found in Doctor's Best Digestive Probiotic at the potency of 20 Billion Colony Forming Units (CFU) help support gastrointestinal tract function and digestive health.\*
