Feverfew (Tanacetum parthenium) is a member of the daisy family, botanically related to the sunflower. Its extract has been shown in human cell culture studies to inhibit the synthesis of prostaglandins known to cause physical discomfort. Certain research publications indicate that Feverfew may help support the following:

- Supports healthy blood pressure*
- Supports head comfort*
- Supports healthy digestive & kidney function*

SUGGESTED USE: As a dietary supplement, take one (1) capsule three times daily, preferably with food. Consider taking these other Best Naturals products: White Willow Bark and Magnesium.

Keep out of the reach of children. Do not use if safety seal is broken or missing. Store at room temperature.
