

L-Carnitine is an important amino acid for providing energy to muscle, and has been described as a "conditionally essential" nutrient for humans. 95% of all carnitine stores in the body are found in muscle tissue. It carries fatty acids into the mitochondria of each cell, where they are metabolized to produce ATP, the body's prime energy fuel.*

- Supports heart health*
- Supports body fat reduction*
- Assists in energy metabolism*
- Transports fatty acid in to muscle tissue*

SUGGESTED USE: As a dietary supplement, take one (1) tablet one to three times daily, or as directed by your qualified healthcare professional.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
