

Directions: As a natural food take one tablespoon daily. Also, add to shakes and smoothies, as well as stir-fry. Ideal over meat and fish. Make a tasty pomegranate 'poma-ade' by adding to sparkling or flat water (about 1 tablespoon for every 12 oz.).

PomaMAX is the only 100% natural, mountain-grown Mediterranean pomegranate concentrate available. All other sources are derived from commercial pomegranates. This is the original pomegranate concentrate, made by the same old-fashioned methods used for centuries. Notice the exceptional, naturally tart taste and aroma of this pomegranate concentrate. Pomegranate is one of the top sources of the potent flavonoids punicalagin and ellagic acid. It is richer by weight in antioxidants than virtually all other fruits and vegetables.
