

Pregnenolone is the starting point from which all steroid hormones are manufactured in our bodies. Its conversion in the body follows different pathways, depending on individual needs. Its main role is as a progenitor hormone for the biosynthesis of other hormones (such as Progesterone, DHEA, cortisol and other sex hormones).* Certain research publications indicate that it may help support the following:

- ▶ Supports healthy aging*
- ▶ Supports memory and hormonal balance*

SUGGESTED USE: As a dietary supplement, take one (1) tablet daily with a meal or as directed by your qualified healthcare professional.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
