

Brewer's yeast is a natural source of protein, several B-vitamins and minerals. It is produced by cultivation of *Saccharomyces cerevisiae* on malted barley in the production of beer. After fermentation, the yeast is separated from the beer, roller dried and debittered.†
 Certain research publications indicate that Brewer's Yeast may help support the following:

- Supports healthy glucose metabolism.†
- Natural source of protein and several B-vitamins.†

SUGGESTED USE: As a dietary supplement, take two (2) tablets three times daily, preferably with meals or as directed by your qualified healthcare professional.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
