

(High T.) **BLACK** HARDCORE FORMULATION

You asked for it, and High T delivered, yet again!

You are now holding High T Black Hardcore Formulation Caffeine Free. That means all the same boost without the heart stimulation from caffeine.

High T Black's scientifically formulated blend of clinically studied vitamins and natural herbs are designed to support boosting testosterone levels, energy & vitality, sex drive & libido, strength & stamina and blood flow. High T Black hardcore caffeine free removes the caffeine and replaces it with panax ginseng to provide a clean, sustainable solution to keep the boost without the elevation.

BOOST WHAT MATTERS™ (High T.)

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.

(High T.)

In a man's brain there is a complex chain of signals called the hypothalamic-pituitary axis. The testosterone produced in the testes is regulated by this chain. At onset of puberty, there is a rapid increase in the production of testosterone, but begins to show from the age 30 onward. High T Black Hardcore Formulation has been scientifically formulated to support the effects of testosterone deficiency.
