It's fun to feel good.

Did you know there are two types of muscle cramps? That's right. If you start cramping during a match, that's a sign that your body is low in Potassium. If you cramp up after the match or at night, that's a sign your body is low in Magnesium.\*

Jigsaw **Pickleball Cocktail**® is especially useful during long Pickleball tournament days and contains both Potassium and Magnesium — two key electrolytes. It also contains Redmond's Real Salt™ which has important trace minerals that regular sodium-chloride doesn't have.

Finally, we don't use any sugar. Zero. Yes, sugar can give you a spike in energy... but that's really just a band-aid. And most people are (wisely) trying to limit their daily sugar intake!

**Product of the U.S.A.**, with select ingredients thoughtfully curated from around the world.

**Should not be used if tamper-evident seal is broken. Keep out of reach of children. Store in a cool, dry place.**

TRACS™ is a trademark of Balchem Corp. or Albion Labs. U.S. Patent 7,838,042.
