PACKETS

SUGAR-FREE ELECTROLYTE DRINK MIX | PRE-GAME LIKE A PRO

800mg POTASSIUM • 80mg SODIUM • 50mg MAGNESIUM

NUTRITIONAL SUPPLEMENT | 60 SERVINGS | NET WT 11.11 OZ (315 G)

DEAR PICKLEBALL ADDICT,

Did you know there are **two types of muscle cramps?** That's right. If you start cramping during a match, that's a sign your body might be deficient in Potassium. If you cramp up after the match or at night, that's a sign your body might be deficient in Magnesium.*

Jigsaw Pickleball Cocktail® is especially useful during long Pickleball tournament days and contains both Potassium and Magnesium — two essential electrolytes. It also contains Redmond's Real Salt™ which has important trace minerals that regular sodium-chloride doesn't have.

Finally, we don't use any sugar. Zero. Yes, sugar can give you a spike in energy... but that's really just a band-aid. And most people are (wisely) trying to limit their daily sugar intake!

DIRECTIONS:
Pour packet into 16 oz bottle of cold water, shake & enjoy!
