It's fun to feel good.

Plain drinking water (even bottled "mineral water") does not deliver the necessary quantity or balance of the essential minerals and electrolytes that your body requires for optimal hydration.

Jigsaw **Electrolyte Supreme™** provides a balanced combination of key electrolytes and minerals such as calcium, magnesium, zinc, selenium, sodium and potassium as well as important B complex vitamins in their active, bioavailable form to enhance energy production.*

Suggested Use: As a nutritional supplement, mix 1 scoop in 8-16 fl oz of cold water (or to taste) and stir for 5 seconds once daily. Or use as directed by your healthcare professional.
