

Did you know?

Feverfew has a long and colorful history dating back to 70 AD, when the famous Greek physician Dioscorides noted he was a big fan of this herb. It's been researched and used ever since to help your body adjust to minor pain, especially in your head. We harvest this Feverfew on our farm and freeze-dry it immediately to retain its natural properties.*

We care about the future of mankind and the planet we call home. As certified organic farmers we grow many of the herbs found in our products. Our regenerative practices heal the land, sequester carbon from the atmosphere and ensure that pure, potent herbal medicine is available today and for future generations. **Peace.**

Free from: Gluten, dairy and soy allergens.

CAUTION: Keep out of reach of children. If taking medication consult with a healthcare professional before use. Do not take if pregnant or nursing. Discontinue use if unusual symptoms occur.
