

Digestive enzyme breaks down the nutritional components of foods, making these nutrients available for the body's energy needs, cell growth and other vital functions required for optimal health. Lactase is digestive enzyme that helps break down lactose, the sugar in milk and dairy products, which may result in milk being more readily digestible by the body.*

CAUTION: For adults only, if you are pregnant, nursing, taking any medications or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
