

Did you know?

Not only does Maca grow at high elevation in the harsh climate of the Andes Mountains, it thrives there. This may explain why it has been used to support overall health, helping to improve stamina and vitality for thousands of years going back to pre-Incan times.*

We care about the future of mankind and the planet we call home. As certified organic farmers we grow many of the herbs found in our products. Our regenerative practices heal the land, sequester carbon from the atmosphere and ensure that pure, potent herbal medicine is available today and for future generations. **Peace.**

Free from: Gluten, dairy and soy allergens.

CAUTION: Keep out of reach of children. If taking medication consult with a healthcare professional before use. Do not take if pregnant or nursing. Discontinue use if unusual symptoms occur.
