

Did you know?

The calming effects of Passionflower were discovered in Peru in the 16th Century, though the Aztecs of Mexico were using it long before that. Today, you can enjoy the benefits of Passionflower's all-natural way to help you relax and drift off to sleep without feeling groggy when you wake up.*

We care about the future. As certified organic farmers we grow many of the herbs found in our products. Our regenerative practices heal the land, sequester carbon from the atmosphere and ensure that pure, potent herbal medicine is available today and for future generations.

Free from: Gluten, dairy and soy allergens.

CAUTION: Excessive consumption may impair ability to drive or operate heavy machinery. Keep out of reach of children. If taking medication consult with a healthcare professional before use. Do not take if pregnant or nursing. Discontinue use if unusual symptoms occur.
