

Vitamin B-6, also called pyridoxine, is one of the more popular members of the B-vitamin family and is found in fresh vegetables. It is an essential nutrient required for the metabolism of lipids, carbohydrates, and proteins. Vitamin B-6 also plays an important role in regulating homocysteine levels in the body. Homocysteine is produced as a by-product of the demethylation of methionine and can be toxic in elevated amounts.* Certain research publications indicate that it may help support the following:

- Supports healthy heart & brain function*
- Supports healthy red blood cells*

SUGGESTED USE: As a dietary supplement, take one (1) tablet one to two times daily, preferably with meals, or as directed by your qualified healthcare professional.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
