

Did you know?

Wormwood is an ancient herb descriptively named for its ability to get to the root of digestive issues. The essential oils in Wormwood give it a bitter taste, which helps stimulate the production of digestive enzymes, especially bile. That's very good news for healthy digestion and liver function.*

We care about the future of mankind and the planet we call home. As certified organic farmers we grow many of the herbs found in our products. Our regenerative practices heal the land, sequester carbon from the atmosphere and ensure that pure, potent herbal medicine is available today and for future generations. **Peace.**
