Suggested Use: How to MIX Properly:

ENJOY HOT: It is best to mix briskly with a wire whisk or battery operated wire frother type of mixer into hot coffee, hot tea, hot cocoa or any hot beverage. May add to soups, stews, gravy or any hot recipes as well.

ENJOY COLD: It is best to blend the powder in an electric blender or a hand held electric mixer. Mix it into a whole food shake or smoothie. Great with coconut milk, almond milk or cashew milk and add fruit like bananas, blueberries and some veggies like spinach and add ice and blend. Can add into any baked recipe or into yogurt, cottage cheese or oatmeal. (Ideal to mix alone into water - its unflavored and has no sugar - remember this is a nutritional supplement. It is not a typical protein powder and it has a tendency to clump if not mixed the BEST way as listed above.)

Try take one or more scoops a day! Consistency is key when it comes to experiencing the amazing benefits of consuming collagen peptides and bone broth daily.
