CORE SERIES
TURMERIC

SUPPORT HEALTHY JOINT FUNCTION †

**IMMUNE SYSTEM BOOSTER &
ANTIOXIDANT †**

TURMERIC contains 95% curcuminoids (or curcumin), the highest level on the market today. This means 95 out of every 100 milligrams of turmeric in TURMERIC is curcumin.

BIOAVAILABLE CURCUMIN: TURMERIC Bioavailable Curcumin features Liposomal Delivery - a proprietary, bioenhanced form of curcumin, which is much more efficacious in the body. Research has shown Liposomal Technology has a greater curcuminoid bioavailability than native curcumin. TURMERIC has been developed from Blackstone Labs' Liposomal technology combining Phosphatidylcholine and beta cyclodextrin with curcumin. TURMERIC exhibits an increase in stability that shields curcumin from water and improves the absorption of curcumin.†

DIRECTIONS

As a dietary supplement, take two (2) tablets twice daily with a meal
