SUPPORTS BONE HEALTH

D3 + K2 + Vitamin A are vitamins that build healthier, stronger, more resilient bones. Vitamin D oversees the absorption and use of calcium by the body & bones.*

PROMOTES HEART HEALTH AND IMMUNE FUNCTION

Vitamin D3 supports cardiovascular functions.*
Vitamin K2 (MK-7) is a special form of Vitamin K
which directs calcium to your bones instead of your
arteries, where too much calcium could be
problematic.* Vitamin A (and D3) both enhance
immune system functions for overall well-being.*

OPTIMIZES CALCIUM METABOLISM
