Supplement Facts

Serving Size: 1 teaspoonful (5 mL)

Amount Per Serving	% DV*
Iron (elemental) 60 mg	333%

*Percentage Daily Values (DV) are based on a 2,000 calorie diet.

INGREDIENTS

Ferrous Sulfate 300 mg (60 mg elemental iron) per 5 mL, purified water, sucrose, cinnamon flavoring, citric acid, and sodium benzoate.

Ferrous Sulfate Oral Solution is an iron supplement for the prevention and treatment of iron deficiency and iron deficiency anemia when the need for such therapy has been determined by a doctor.

DIRECTIONS

As directed by a doctor or as follows:

- Prevention of iron deficiency
Adults: 5 mL (1 teaspoonful) daily
Children under 12 years of age: consult a doctor
- Iron replacement therapy in deficiency states
Adults: 5 mL (1 teaspoonful) two (2) to four (4) times daily preferably between meals
Children under 12 years of age: consult a doctor

Mix with water or fruit juice and drink through a straw to avoid temporary staining of teeth. Do not mix with milk or wine-based vehicles.
