Directions: Adults - Take 4 capsules daily with water in between meals.

HGH (Human Growth Hormone) is a natural hormone produced and secreted by the pituitary gland. As we age the production of HGH diminishes.

The ingredients in our HGH have been proven to be a natural support to the anti-aging process:

GLUTAMINE: Increases HGH levels in men and women.*

INSULIN-LIKE FACTORS I & II: Present in Colostrum affect how the body uses fat, protein, and sugar to promote cell repair and growth.*

NARINGININE: Potent antioxidant rich in fiber (pectin) helps lower LDL cholesterol and reduces appetite.*
