CODE 897911

CIG

Leucine, Isoleucine and Valine are branched chain amino acids (BCAA) essential to muscle.* They help to fuel your muscles and play a key role in the regulation of muscle protein synthesis.* BCAA also help to reduce the amount of protein breakdown from exercise and help to preserve muscle glycogen stores.* In addition, this unique formula is pumped with 200 mg of caffeine to help boost your energy and support improved performance.*

Each serving of GNC Pro Performance® Amino Complex 4400 provides 4400 mg of BCAA.

DIRECTIONS: As a dietary supplement, take eight capsules daily. For best results, take immediately before your workout.
