AN UPSET TUMMY CAN RUIN YOUR WHOLE DAY.

Many patients ask how they can assist with their stomach upset and nausea in a natural way. Fortunately, Mother Nature has given us *Zingiber officinale*, better known as ginger.

Beyond its great taste, ginger contains many compounds that may assist with occasional stomach upset and nausea. Each ginger tummydrop is made from the purest and best tasting ginger. We use a special patent pending process to naturally enrich the beneficial compounds from ginger before adding it to each drop. The result? Tummydrops are unlike any other ginger you've tried before. Think of them as all of the goodness from a whole root of ginger concentrated into a single drop.★

They are great for travel and when you're on the go, and always help keep your tummy happy! The next time an upset stomach tries to ruin your day, you'll be prepared.

SUGGESTED USE:

- Adults, take up to 12 drops per day, or as directed by your physician.
- Parents, keep out of reach of children. This is not a candy.
- Medical guidelines recommend that you discuss this and all dietary supplements with your physician before use.
