GNC QUALITY COMMITMENT

GNC, the leader in the development and manufacture of dietary supplements, is committed to producing the highest quality products available. This commitment begins with quality designed supplement formulations. Every raw material that goes into a GNC supplement is guaranteed as to quality and potency. Each product is dated and then shipped immediately to our stores, so you can be sure you are purchasing the freshest supplements available. At GNC, we extend our quality commitment to you by offering our money-back guarantee.

GNC GUARANTEE

Use any GNC supplement for as little as 10 days. If you are not 100% completely satisfied, return the unused portion of the product with proof of purchase to your GNC store for a complete refund of your purchase price. No questions asked!

Please recycle this box.

GNC's Product Development Scientists were challenged to create an advanced delivery form of amino acid supplements, a critical sports nutrition component that can be used in the regimen of top athletes. The result of these research efforts led to the creation of the RapidDrive™ Amino Series, a core group of superior and fast-absorbing amino acids for rapid muscle fueling results. This unique technology is much more advanced compared to regular amino acids. Because our team is dedicated to continually improving sports nutrition products, the Pro Performance RapidDrive™ Amino Series helps you, the athlete, get fast fuel for your muscles.

Pro Performance RapidDrive™ Arginine 5000 features our most advanced RapidDrive Amino Acid Technology. This formula has been scientifically designed to provide your body with 5000 mg of arginine that has been pulverized, or "micronized," from large molecules into smaller particles that are easier to absorb and deliver fast fuel for powerful performance.* Arginine is a crucial part of the nitric oxide pathway which helps to maintain blood vessel tone.* This key amino acid is also used by the body to make creatine and fuel the muscles.* This unique formula features L-citrulline, which can be converted to L-arginine, assisting in the nitric oxide pathways.* It also supplies antioxidant protection from bilberry which provides support for enhanced blood circulation.*
