Source Naturals **CALCIUM D-GLUCARATE** includes the patented compound glucarate which has been shown in animal studies to support major detoxification pathways in the body. Calcium D-glucarate, the calcium salt of D-glucaric acid, is found naturally in the human body and in a variety of fruits and vegetables. Animal studies have shown that high doses of calcium D-glucarate may modulate *beta*-glucuronidase, and thereby support the process of glucuronidation. Glucuronidation is one of the body's healthy processes in which foreign organic compounds, fat-soluble toxins and excess steroid hormones such as estrogen are detoxified and excreted.

**Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.**
