

SUGGESTED USE: Assess your tolerance by taking 1 small scoop (4.9g) with 8-10 oz of cold water and consume 20-30 minutes prior to training. For advanced users and those looking to maximize energy, pumps and focus you may use 1 large scoop (9.8g). Do not exceed 1 large scoop in any 24-hour period. To avoid sleeplessness, do not take within 4 hours of bedtime.

This product is intended for healthy adults 18 years of age or older. Consult a physician before using this or any other dietary supplement. Do not take this product if you are pregnant or nursing, if you have or suspect you may have a medical condition, or if you are taking any prescription or over-the-counter medications. Do not exceed recommended serving. Exceeding recommended serving may cause adverse health effects. This product contains 427mg of caffeine, the equivalent of approximately 4 cups of coffee, and may not be suitable for individuals sensitive to caffeine's effects. Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heartbeat. Immediately discontinue use and consult a qualified medical professional if you experience any adverse effects. KEEP OUT OF REACH OF CHILDREN.
