

Highly Soluble

NutriBiotic® Calcium Ascorbate is a fully reacted, buffered crystalline powder combining 100% pharmaceutical grade vitamin C (L-ascorbic acid) and calcium in a highly soluble form.

Vitamin C and calcium are essential nutrients that help support the body. Vitamin C provides antioxidant protection to the immune system, as well as maintains the health of blood vessels, tissue, cartilage, bones, eyes, and other organ systems.* Vitamin C is also required for the biosynthesis of collagen, L-carnitine, and neurotransmitters.* Calcium helps maintain bone density.* The combined positive effects of vitamin C and calcium make them vital to the body's overall health.

NutriBiotic Calcium Ascorbate is manufactured by dissolving ascorbic acid in a solution with calcium carbonate (mined from the earth) creating a fully reacted compound. NutriBiotic

Calcium Ascorbate is ideal for individuals looking for an alkaline (buffered) form of vitamin C.

Suggested Use: As a dietary supplement, mix 1/2 teaspoon into a glass of juice or water. Take with or without meals.
