

ULTIMATE FLORA

RENEW LIFE

Daily Care Probiotic

15 Billion Live Cultures Per Capsule!

The Ultimate Flora Probiotic Difference

HIGHER CULTURE COUNT

Ultimate Flora DAILY CARE 15 Billion is a once daily maintenance probiotic formulated to promote healthy digestion.* Each capsule contains 15 billion live cultures of 10 strains of beneficial flora.†

ONE CAPSULE PER DAY

To receive 15 billion cultures per day you would need to take 15 capsules of a probiotic with only 1 billion cultures per capsule!

DELAYED RELEASE CAPSULE

Stomach acid can destroy probiotics. Ultimate Flora vegetable capsules are designed to resist stomach acid more than standard capsules.

No Delayed Release

Ultimate Flora Delayed Release

Capsule does not resist stomach acid

Capsule is designed to resist stomach acid

Superior Health Begins in the Digestive System

WHAT ARE PROBIOTICS?

Probiotics are beneficial bacteria that live in the intestines. Lactobacilli probiotics are most prevalent in the small intestine and Bifidobacteria probiotics are most prevalent in the large intestine (or colon). The average intestinal tract contains more Bifidobacteria than Lactobacilli.

HOW IS ULTIMATE FLORA DIFFERENT?

Ultimate Flora contains 10 different strains of beneficial probiotics (Bifidobacteria and Lactobacilli). Some other brands contain only Bifido or only Lacto. Since you have many different strains of probiotics in your intestinal tract, more strains (B's and L's) may be better.

WHY TAKE ULTIMATE FLORA?

As we age, our level of Bifidobacteria declines. Ultimate Flora DAILY CARE contains more Bifido than Lacto to help maintain a healthy digestive environment.*

What to look for in a probiotic supplement:

- ✓ At least 10 probiotic strains
- ✓ High culture count with Bifidobacteria & Lactobacilli strains (B's and L's)
- ✓ Delayed release capsule
- ✓ Potency until time of consumption!
- ✓ Quality and Purity Guaranteed
