

Suggested Usage: Take 6 tablets daily, on an empty stomach at least 1 hour before or 2 hours after meals. Best when taken as directed by a qualified healthcare professional. Avoid taking with other foods containing protein as they may interfere with collagen absorption.

Collagen is the primary structural protein found in joints, bones, skin, nails and other connective tissues. It is responsible for maintaining the strength and elasticity/flexibility of these tissues found throughout the body.

Our **Hydrolyzed Collagen + Vitamin C** contains unique, enzymatically hydrolyzed, low molecular weight **Collagen Peptides** with **Vitamin C**. This product provides the fundamental building blocks for support of healthy hair, skin, nails, joints & bones.* Taken as a dietary supplement, it provides the body with the nutrients needed to support the strength and integrity of our bodies.* Our specially processed Collagen is enzymatically hydrolyzed (broken down) into amino acid peptides in order to assist with absorption/bioavailability.

Aroma and color may vary. Color shift is normal and cannot be avoided. Tablet chipping may occur and is normal as our tablets are not coated. Double safety sealed, with outer shrink wrap film and inner bottle freshness seal. Best stored at controlled room temperature 20°C to 25°C (68°F to 77°F). Improper storage conditions, such as extended exposure to direct sunlight, high heat & humidity can cause product degradation over time.
