

Easy, Convenient Capsules

NutriBiotic® Sodium Ascorbate Capsules provide 850 mg of 100% pharmaceutical grade vitamin C and 100 mg of sodium in an easy, convenient form.

Vitamin C and sodium are essential nutrients that help support the body's health. Vitamin C provides antioxidant protection to the immune system, as well as maintaining the health of blood vessels, tissue, cartilage, bones, eyes, and other organ systems.* Vitamin C is also required for the biosynthesis of collagen, L-carnitine, and neurotransmitters.* Sodium is an electrolyte that helps maintain the balance of water in and around cells, maintain stable blood pressure, and is important for muscle and nerve function.* The combined positive effects of vitamin C and sodium make this an important supplement for the body's overall health.

NutriBiotic Sodium Ascorbate is manufactured by dissolving L-ascorbic acid with sodium hydrogen carbonate mined from the earth. The sodium in this product differs from common table salt, as it is not combined with chloride. NutriBiotic Sodium Ascorbate Capsules are ideal for individuals looking for an alkaline (buffered) vitamin C.

Suggested Use: As a dietary supplement, take one capsule daily with or without meals.
