Other ingredients: microcrystalline cellulose, dibasic calcium phosphate, hydroxypropyl cellulose, magnesium stearate, and silica.

Suggested Use: 1 tablet daily with a meal.

VITAMIN K2 ADVANTAGE™ uniquely delivers three powerful forms of vitamin K important to bone and heart health—K1, and two forms of K2, known as MK-4 and MK-7. MenaQ7® Vitamin K-2 works in two ways—it supports bone density and maintenance of normal vascular elasticity by helping direct proper amounts of calcium to the appropriate tissues. MenaQ7® Vitamin K-2 is highly bioavailable, lasts up to 12X longer than other forms of vitamin K, and is provided in this formula in a clinically backed dose. This complete vitamin K complex is vegan and non-GMO.*

WARNING: If you are pregnant, may become pregnant, breastfeeding, or if you are taking anticoagulant drugs such as warfarin (Coumadin®), consult your health care professional before using this product. Vitamin K2 may counteract the effects of anticoagulation therapy, and therefore is not recommended for patients on blood-thinning medications.

STORE IN A COOL, DRY PLACE.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

MenaQ7® is a registered trademark of NattoPharma, Norway. Patents granted and pending.
