

Hyaluronic acid and collagen are vital components of skin structure that change as we age. They are responsible for the skin's moisture, suppleness, and elasticity. Patented BioCell Collagen® is made from 100% pure cartilage, which has undergone a hydrolysis process that yields low molecular weight hyaluronic acid, chondroitin sulfate, and collagen type II peptides. These elements found in BioCell Collagen® make it a multifaceted ingredient that may help support healthy skin function and appearance, as well as help support joint comfort and function.*

Suggested Use: 2 tablets twice daily.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

BioCell Collagen® is a registered trademark of BioCell Technology LLC, Anaheim, CA, USA (U.S. and foreign patents pending).
