DIETARY SUPPLEMENT

COENZYMATED™ B-2

FMN (FLAVIN MONONUCLEOTIDE)

60 LOZENGES

Supplement Facts

Serving Size 1 Lozenge

Amount Per Serving		%DV
Riboflavin	18 mg	1,385%
(from 25 mg flavin mononucleotide [Coenzymated™])		

Other ingredients: sorbitol, mannitol, natural peppermint flavor, and magnesium stearate.

THE BENEFITS OF COENZYMATED™ VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. **COENZYMATED™ B-2** is ready to go to work immediately. Flavin mononucleotide (FMN), also called riboflavin phosphate, is one of the two metabolically active coenzyme forms of vitamin B-2. FMN is itself the precursor for the other B-2 coenzyme, FAD. FMN is involved in a wide array of enzymes and has many roles in energy production from our food, as well as bio-converting B-6 to its coenzyme form.*

Suggested Use: 1 lozenge daily. For best results, allow to dissolve in the mouth before swallowing.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Contains no yeast, dairy, egg, gluten, soy or wheat. Contains no preservatives, or artificial color, flavor or fragrance.
