WARNING: If you are pregnant, may become pregnant, or breast-feeding, consult your physician before using this product.

Injuv® is a revolutionary new form of hyaluronic acid. Hyaluronic acid plays an integral role in maintaining and regulating moisture within the tissues and facilitates the transport of nutrients into the cells and the removal of metabolic waste. It is found in all of the body's tissues, with the highest concentrations located in the extracellular matrix of the skin and the synovial fluid that bathes the joints and cartilage. Optimum levels of hyaluronic acid are essential for the health of the joints and cartilage. Injuv® provides the only hyaluronic acid that has undergone a natural enzyme cleaving technique for greater absorption.*

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Injuv® is a trademark of Soft Gel Technologies, Inc.®
