†Daily Value not established.	

L-Lysine is an essential amino acid which acts as a precursor for several other amino acids, including L-citrulline (needed in the body for normal protein metabolism) and L-carnitine (needed for fat metabolism). L-Lysine is crucial for the formation of collagen, a major part of the body's connective tissues. L-Lysine also contributes to energy production when converted to acetyl coenzyme A, one of the principal fuels for the Krebs cycle.*

Suggested Use: 1/4 to 1/2 teaspoon daily with juice or water.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.
