WOMEN'S ULTRA MEGA® DIABETIC SUPPORT

GNC Women's Ultra Mega® Diabetic Support is scientifically designed for the special dietary needs of people with diabetes and is formulated to provide optimal health benefits when taken as directed every day. This premium formula contains nutrients that address the primary health concerns of people with diabetes: blood glucose metabolism support, eye health and circulatory health. Use Women's Ultra Mega® Diabetic Support in conjunction with the enclosed nutritionally balanced diet suitable for persons with diabetes to help maintain healthy blood sugar levels and improve circulation and eye health.*

Advanced Nutritional Support

- Supplies B-vitamins that are essential for energy production and metabolism.* Each daily dose supplies a 50 mg B-vitamin complex including 400 mcg of folic acid that is essential for DNA formation.*
- Includes 1,600 IU of vitamin D-3. Emerging research suggests that adequate daily vitamin D intake may play a role in supporting breast and bone health.*
- Includes 18 mg of iron, a vital nutrient that plays an essential role in forming healthy red blood cells and transporting oxygen.*

Blood Glucose & Metabolism Support

- Contains key nutrients involved in glucose metabolism and utilization. Zinc and key B-vitamins provide support for carbohydrate metabolism.* Chromium helps maintain glucose homeostasis, and Vanadium may have a positive effect in glucose metabolism.* A combination of herbal ingredients including cinnamon, bitter melon, fenugreek, and gymnema sylvestre is included for additional support.*

Circulatory & Cardio Health Blend

- Provides a potent blend of ingredients that support circulatory and cardiovascular health including ginkgo biloba to support increased peripheral blood flow, arginine, a precursor of nitric oxide which helps maintain blood vessel tone, and choline to support lipid transport and metabolism.*

Eye Health Support

- Delivers powerful ingredients that support eye health such as lutein and lycopene. The superior form of lutein in this formula is more bioavailable than regular lutein. Lycopene acid is an important structural component of the eye that supports eye lubrication.*

Antioxidant Protection

- Contains powerful antioxidants such as astaxanthin, lycopene, zeaxanthin and lutein to help protect cells from the damaging effects of excess free radicals that can promote the cell aging process.*

Beauty Blend

- With collagen and silica to support the structure of healthy skin. Also includes amla fruit for added antioxidant support.
