8% Minimum Total Isoflavones	40 mg	†

†Daily Value not established.

Other ingredients: dibasic calcium phosphate, stearic acid, hydroxypropyl cellulose, modified cellulose gum, silica, and magnesium stearate.

Red clover is an herb that contains specific isoflavones including genistein, daidzein, biochanin and formononetin. Studies have shown that these phytoestrogens, specifically from red clover, are important in maintaining women's health. Additionally, research shows that red clover may help in maintaining a healthy cardiovascular system during menopause. A high dietary intake of isoflavones may also support skeletal health.* Source Naturals **RED CLOVER EXTRACT** is standardized to yield a minimum of 40 mg total isoflavones per serving from the following profile:

Biochanin A

18.8 mg – 27.8 mg*

Formononetin

11.9 mg – 25.4 mg*

Genistein

1.0 mg – 2.4 mg*

Daidzein

525 mcg – 1.4 mg*

*Natural plant variations may cause fluctuations in individual isoflavone content.

Suggested Use: 1 tablet daily.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.
