180 Easy-to-Swallow Capsules

Andrew Lessman's A.M. ACTIVATOR is designed as a safe and healthy means of maintaining energy levels while stimulating and supporting fat-burning metabolism without the potentially dangerous Ephedrine-containing herb, Ma Huang. **A.M. Activator** contains thermogenic herbs and natural cellular activators to jump-start your metabolism and facilitate your fat-loss goals. It contains standardized extracts with a history of traditional use in many cultures for promoting energy and a sense of well-being. To further support your weight-loss goals by fighting fatigue and providing calming benefits, we include standardized extracts of **Panax** (Asian) **Ginseng, Eleutherococcus** (Eleuthero), and **Ashwagandha** – adaptogenic herbs with a history of traditional use going back thousands of years. In addition, **A.M. Activator** supplies **Chromium** to support healthy carbohydrate metabolism and the **B-Complex** vitamins to maintain energy production and fat metabolism. Most importantly, we add **Acetyl L-Carnitine** given its central role in all fat-burning metabolism. No fat can be burned without Carnitine transporting it to the location within each cell where it is burned. We also add Carnitine's natural precursors, **Lysine** and **Vitamin C** to promote optimum endogenous production of Carnitine. The investment and sacrifice we make when dieting and exercising deserve the best results and the unique combination of ingredients in **A.M. Activator** is designed to safely and gently jump-start fat and energy metabolism.
