Citrus Bioflavonoids. Details regarding each of these powerfully protective ingredients follows: Coenzyme Q-10 (CoQ10) - 500 mg. CoQ10 is central to all cellular energy production, while also being a powerfully protective and critical anti-oxidant. It must be present at high concentrations in the hardest working organs in the body (heart, brain, liver and kidneys) in order for these vital organs to function at their best and to protect themselves. CQ10 levels

decrease with are, stress, medications, poor diet and even physical activity making supplementation essential Alpha Lipoic Acid (ALA) - 500 mg, Because of its unique ability to be both water and fat soluble, ALA is referred to as the "Universal Anti-Oxidant". This unique solubility allows it to go virtually anywhere in your body protecting hard-to-reach tissues from oxidative damage. Even more important is its essential role in the production of your body's most powerful internal

Resveratrol - 200 mg. Resveratrol has been the focus of extensive anti-aging research and only recently available in a pure, high-potency natural form. Resveratrol is the molecule behind the benefits of Red Wine the Moditerranean dist and the Report Paradov. Respectator is a far more powerful articoldary places it at the forefront of the latest anti-aging research.

Epigallocatechin Gallate (EGCG) - 200 mg, EGCG from Green Tea combines thousands of years of traditional use with important internal anti-oxidants. EGCG is also yital to our liver and therefore to our body's internal cleansing and detoxification systems, while also supporting the immune system and protecting the delicate tissues of our brain, heart and breast. Pomegranate (40% Ellagic Acid and Punicalagins) - 200 mg. Used traditionally for centuries and referred to as "sacred fruit", scientists have confirmed Pomerranate's unique protective content. Unfortunately, most Pomerranate products and juices are not standardized to deliver its beneficial compounds, whereas our formula is standardized for both Punicalistins

and Eliagic Acid assuring you all the benefits you seek without the sugar and calories of Pomegranate Juice. Citrus Bioflavonoids - 200 ms. Citrus Bioflavonoids, including Hesperidin and Rutin, are some of the most powerfully protective compounds found in plants, and as the name suggests, are highly concentrated in citrus fruit. Citrus Bioflavonoids possess their own independent antioxidant activity and also act syneral stically to enhance the benefits of Vitamin C, which

is why they are so often included in separate Vitamin C formulas. FOUNDER'S also delivers high levels of protective compounds from nine other established natural ingredients, including powerful, protective extracts of Bilberry, Blueberry, Curcumin, Broccoli, Wasabi, Mustard Seed, Pine Bark, Grape Seed and Apple, Each of these standardized extracts of long respected natural foods and ingredients has been the subject of extensive scientific inquiry validating their importance to any comprehensive health and anti-aging regimen.
