MANUFACTURED BY 

ALA 400 ALPHA LIPOIC ACID

HIGH POTENCY ALPHA LIPOIC ACID
THE UNIVERSAL ANTI-OXIDANT

DIETARY SUPPLEMENT

240 Easy-to-Swallow Capsules

Andrew Lessman's ALPHA LIPOIC ACID 400 provides our highest levels of this essential protective compound. **Alpha Lipoic Acid (ALA)** plays a multitude of indispensable roles throughout cellular chemistry and metabolism. It does so, in part, due to its unique ability to exist in both water- and oil-based environments. This universal solubility results in **ALA** being able to deliver its powerful protective benefits throughout the entire body and why it is often referred to as the **Universal Anti-Oxidant**. **ALA** protects the tissues of our most vital organs, including our brain, where it readily crosses the blood-brain barrier. It also protects the vital tissues of our heart and cardiovascular system, as well as our liver, kidneys and lungs. **ALA's** powerful protection allows it to "recharge" and extend the life of other anti-oxidants in the body, such as Vitamins C and E, and CoQ-10. In addition, **ALA** is essential to the creation of **Glutathione** – arguably the body's most important internally produced protective molecule. Despite **ALA's** vital role, our body only produces very small amounts and given its limited presence in our diet, supplements are the only logical means of overcoming the reduction in **ALA** levels that occurs with age, stress, illness, poor diet and lifestyle; and even exercise. As science has shown, the human body relies on both internal and external anti-oxidants for a lifetime of protection, and **ALA** is uniquely capable of playing both protective roles. As a result, no modern anti-aging regimen is complete without the powerful and uniquely flexible protection of the **Universal Anti-Oxidant (Alpha Lipoic Acid)**.
