

SUGGESTED USE Swallow one or two capsules with liquid after eating, before going to bed or first thing in the morning. For best results, do not chew capsules before swallowing. **Breath+Plus** can be used anytime, day or night, to help achieve clean, fresh breath by helping to eliminate unpleasant odors caused by garlic, onions, alcohol, fish oils, tobacco, morning breath, coffee, etc originating from the stomach and GI tract. Of course, oral hygiene is essential to clean, fresh breath. **For questions about the use of this product call 800.332.7799.**

BREATH+PLUS™

The Alternative Breath Solution
Standardized Extracts of Peppermint,
Spearmint and Parsley Seed Oils

Dietary Supplement | **720** Easy-to-Swallow Capsules

Andrew Lessman's BREATH+PLUS is a unique approach to help combat the most frequently overlooked source of bad breath – the stomach and digestive system. Obviously, oral hygiene is essential to clean, fresh breath; however, the nearby contents of the stomach and digestive system directly affect the odors emanating from the mouth. The powerful, natural breath fresheners in **Breath+Plus** go to work rapidly within the digestive system to help eliminate offensive odors from garlic, onions, alcohol, smoking, coffee and even morning breath. Our highly concentrated extracts of Parsley Seed Oil, Peppermint Oil and Spearmint Oil combine to create Mother Nature's most effective, natural internal breath freshener. Since **Breath+Plus** is best used swallowed rather than chewed, there's also no unpleasant odor or aftertaste. If fresh breath is your goal, then **Breath+Plus** delivers the perfect complement to good oral hygiene by addressing the most overlooked source of bad breath – the odors originating from the nearby contents of the stomach and GI tract.
