MSM 500

METHYL-SULFONYL-METHANE

Essential Sulfur for Healthy
Hair, Skin, Nails and Joints

Dietary Supplement | **360** Easy-to-Swallow Capsules

Andrew Lessman's MSM 500 delivers a pure, concentrated source of organic Sulfur. MSM is short for Methyl-Sulfonyl-Methane and despite its long name, it is actually a small, easily-absorbed molecule that is ideally built around a central Sulfur molecule. Sulfur is perhaps the most overlooked essential nutrient necessary for maintaining healthy joints, hair, skin and nails. Sulfur plays an essential structural and functional role in joint and connective tissue (cartilage, ligaments and tendons) and it is also essential to the creation of the proteins (elastin, keratin and collagen) that comprise our hair, skin and nails. Like so many essential nutrients, Sulfur is removed by modern food processing, making supplementation an important consideration for healthy joints, as well as the attractive appearance of our hair, skin and nails. Our MSM 500 is a highly concentrated source of the organic Sulfur required for the healthy structure and function of some of the most challenged tissues in our body – our joints, skin, nails and hair.
