

IMMUNE FACTORS*

Fight back with Symbiotics Colostrum Plus with Immunoglobulins and Lactoferrin! Nature provides an immune defense network, but your immune system is challenged by normal physical and mental stress, as well as aging. Colostrum Plus with Immunoglobulins (IgG) and Lactoferrin powerfully enhances normal immune factors, providing dual action—in the bloodstream and in the GI tract. Contains three times the Lactoferrin as our regular Colostrum Plus capsules.

Under the Symbiotics label, Immunoglobulins (IgG) levels are verified by laboratory testing.

Quality and Purity Assured. Our colostrum is sourced exclusively from the first milking of cows not treated with rBST^A at USDA Grade A Dairies. All colostrum is laboratory tested and verified free from pesticides and antibiotics. Each bottle is double sealed for quality and safety. If either seal is broken or missing, do not use and call 1-800-421-1830. Close tightly and store in cool, dry place (below 75°F), away from heat.

Warning: If you have a physician-diagnosed health condition, consult your doctor before taking this product. Discontinue use if you experience adverse reactions and consult your doctor.

^AThe FDA has determined that there is no significant difference between cows treated with rBST and those not treated.
