

Suggested Usage: As a dietary supplement, take one vegetarian capsule daily, preferably with a meal.

Nicotinamide is a water-soluble amide of nicotinic acid. It is a form of Vitamin B-3 that occurs in trace amounts mainly in meat, fish, nuts and mushrooms, as well as to a lesser extent in some vegetables. It is an essential member of the B-Vitamin family and it does not cause a Niacin flush.* Biophix Vegetarian Nicotinamide is suitable for a vegetarian/vegan diet.*

Nicotinamide and Niacin are two different forms of vitamin B-3.

Do Not Eat Freshness Packet. Keep in Bottle.
